**DOCUMENTARY ABOUT THE  
THREEFOLDING OF THE  
SOCIAL ORGANISM**

Invitation to co-create

The *draft* is structured in three parts.

**Part 1:** In a generally accessible manner the history of the beginning of the threefold social order and its initial basic concepts will be set out.

**Part 2:** This part will include the heart of the matter posing the central question: What would you like to contribute threefolding of the social organism?

**At this point individuals who concern themselves** with threefolding and, in the widest sense of the word, feel connected to it will be given a chance to speak. \_

**This means,** that it will not be extensive academic expositions but short, pregnant and lively ideas of between *three and five minutes* that will be presented. This restriction is unavoidable when a large number of people from around the world are all to be given space in which to share. – In this relatively short space of time it will be possible for those who really wants to throw some light on the threefold social order to contribute something essential. - This will be the artistic challenge and as such constitutes the democratic part.

At this juncture it is also the idea that individuals can forge their own 5-minute presentation and generally offer this up as their answer.

\*

**Part 3:** in this part is the **focal point is of an artistic nature.** Here artists are who would like to share an impulse towards threefolding are invited to contribute.

\*

**It is the intention of this documentary** to engender an *initial* understanding or better still, awaken a first feeling for the threefold structure of the social organism, in the general population who as yet know nothing of it.

Since the threefold social order movement is no coherent whole but consists of a number of very different streams a possibility arises here for a myriad of points of view on the topic to be heard and seen and that is the intention.

This documentary will be exclusively financed through **CROWD FUNDING.**  
We ask for your strong measure of support for this undertaking:
